

FAM Update #2

FAM is designing how the MOD will provide you with living accommodation over the next 50+ years.

January 2018

Latest – Pilot News

The FAM pilot is planned to launch from December 2018. This month a number of key decisions have been taken that relate to the Pilot, and are summarised in the update below:

WHAT?

The pilot intends to:

- Widen accommodation eligibility – personnel on the pilot, regardless of rank or marital status, would be eligible for **all** accommodation options
- offer a choice of accommodation to personnel (SFA, SLA, renting, and continued support to buy a home), based on need
- provide a new accommodation payment for those on the pilot

Those on the pilot would be able to state their preference for the accommodation (subject to availability) they wish to live in.

The pilot would be open to Regular personnel and Full Time Reserve Service (Full Commitment) (FTRS(FC))

WHO?

WHERE?

We are currently considering a number of locations across the UK and will confirm them in Spring 2018.

It is expected that the pilot will run for around 3 years. Pilot site start dates will be rolled out from December 2018.

WHEN?

WHY?

Piloting FAM would enable us to test the policy and the way it is delivered, so that we can make any necessary changes before it goes live to all SP

The pilot will...

- ✓ Widen accommodation eligibility beyond the current system
- ✓ Offer more choice of accommodation, including continued support for those who buy a home, and support to rent privately
- ✓ Roll out gradually, starting with a single base

The pilot won't...

- ✗ Force existing personnel **out of** SFA or SLA **that they currently live in**
- ✗ Sell off any SFA
