

Supporting ALL to Thrive

Help us understand the educational experiences of children with additional needs – survey

What is the research?

Researchers from Oxford Brookes University are conducting research exploring the educational experiences of children from Armed Forces backgrounds who have additional learning or support needs and/or disability.

This part of the study is looking into the educational experiences of **any** school-age children with additional needs. We'd love to hear from you, whether or not you have any connection to the Armed Forces.

What would it involve?

Completing an online survey which will take between 10 and 25 minutes to complete. The survey will be open from October to 31 December 2024.

Why participate?

You would help us to understand what is and is not working for children and their families, and the support needed for **all** children to thrive.

Who can participate?

Parents or carers of a child aged 4-18 with additional needs in UK education or MOD schools overseas, whether diagnosed or not (including children who are currently out of school for any reason).
